School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.

An IPM plan is required if a school district uses pesticides¹.

IPM statement		
habitat less conducive to pests using sa	frequent monitoring for pest presence, by ap- anitation and mechanical and physical control property, and the environment, and only after	g on long-term prevention or suppression of pests plying appropriate action levels, and by making the ls. Pesticides that are effective will be used in a rother options have been shown ineffective.
Maintain a clean and safe e	environment at our facilities for stu	dents, staff and the community.
IPM team In addition to the IPM Coordinator, other	er individuals who are involved in purchasing,	making IPM decisions, applying pesticides, and

Name and/or Title	Role in IPM program			
Anthony Olvera	IPM Coordinator			
CJ Knowland, Ricardo Villanueva, David Bodell	Purchasing, scheduling, complying and enforcing IPM policies			
Daniel Rodriguez, Marcus Rosenthal, Nathan Williams, Steve Mariano, Mitch Banales, Paul Stevens, Kevin Mariano, Shaun Valdez, Karin Vizcaino, Brian Garcia, Matthew McDonald, Andy Mcowan, Daniel Salas	Posting and applying pesticides			

Pest management contracting

Pest management services are contracted to a licensed pest control business.

Pest Control Business name(s): Fenn Pest Control and Tree Pros Inc.

Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

complying with the Healthy Schools Act requirements, include:

Pest Identification is done by: District Staff, Fenn Pest Control and Tree Pros Inc.

(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by

District Staff, Fenn Pest Control and Tree Pros Inc. and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Monthly inspection and application for roaches and general pests in kitchens district wide. Monthly inspection and pest control for gophers performed district wide. Termites and other general pests inspected upon requests. District staff inspects campus monthly for safety and security including pest control.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Rodents	\mathbf{A}		×	\overline{A}	₩.	×	\overline{A}	
Ants	\mathbf{A}	À	À			À		
Roaches	\mathbf{A}	À	¥		₩.	×		
Spiders			¥			×		
Weeds & Grases		À			₩.		\mathbf{A}	

Chemical pest management practices

and correct.

Date of next review:

Signature:

I acknowledge that I have

May 2020

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

list includes pesticides that will be applied by school district staff or licer	nsed pest control businesses.):
See attached list.	
Healthy Schools Act	
This school district complies with the notification, posting, recordke (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultus Agric	
Training Every year school district employees who make pesticide applications r	receive the following training prior to pesticide use:
Pesticide specific safety training (Title 3 California Code of Regulat	
School IPM training course approved by the Department of Pesticic Code Section 13186.5).	
Submittal of pesticide use reports	
Reports of all pesticides applied by school district staff during the care submitted to the Department of Pesticide Regulation at least a provided at www.cdpr.ca.gov/schoolipm . (Education Code Section	nnually, by January 30 of the following year, using the form

This IPM plan is sent out to all parents, guardians and staff annuall	y.
Review	
This IPM plan will be reviewed (and revised, if needed) at least anr	nually to ensure that the information provided is still true

Date: 5/2/19

eviewed this school districts IPM Plan and it is true and correct.

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

Notification of Pesticides/Herbicides

In accordance with Assembly Bill 2260, school districts are required to notify parents regarding the types of pesticides/herbicides that <u>may</u> be used in the maintenance of the school sites. Parents may register with their school site if they wish to be notified when a pesticide/herbicide will be used. Following is the list provided by the District's Maintenance and Operations Department. Should you have questions, please contact Anthony Olvera, Maintenance Supervisor (562) 799-4592.

Product Name	Active Ingredient			
Advance	Abamectin			
Avert	Abamectin			
Barricade 4FL	Prodiamine			
Baygon Granules	Methylcarbanate			
Best Turf Supreme	Nitrogen			
Bora-Care	Disodium Octaborate Tetrahydrate			
BP 100	Pyrethrins			
CB-80	Pyrethrins			
Delta Dust	Deltamethrin			
Demand CS	Lambada-Cyhalothrin Technical (9.7%)			
Diazinon 5G	Diazinon			
Dismiss CA	Sulfentrazone			
Drive XLR8	Quinclorac
